MIDDLE WEST GRIPPED BY STORM

Howling Gales and Drifting Snow Paralyze All Public Utilities

FEAR FELT AT CHICAGO FOR SHIPPING ON LAKE

Vessel Rumored Sunk—Cold is Intense—Suffering Widespread Among Poor

CHICAGO, Jan. 31.—It is snowing heavily here and a fierce gale is blowing. All railroad schedules are demoralized and street car service has been disrupted. Fears are felt for lake shipping. Tugs are investigating reports that an unidentified vessel sunk today at the foot of Lake avenue.

The storm is reported as general throughout the middle west.

While crossing a street today, a pretty girl, poorly clad, fainted and fell into a snow drift. She died an hour later. The coroner and physicians said her death was due to starvation.

HOWLING BLIZZARD RAGES IN INDIANAPOLIS, IND. Indianapolis is raging here. All trains are twelve hours late. Both interurban and street car service is out of commission and wire communication is almost completely crippled.

Joseph Walsh put a telephone receiver to his ear and received a shock from which death resulted, a live wire having been blown across the telephone wire.

The weather is very cold and widespread suffering exists among the poor. A man was found badly frozen, leaning against a telephone pole in the residence district. He was taken to a hospital, where it is expected he will die.

MICHIGAN IS SWEEPED BY STORM—UTILITIES CRIPPLED. DETROIT, Jan. 31.—This city is blizzard-swept. Street car lines and railroads are badly crippled. Practically all wires are down. All of Michigan is being swept by the storm.

SPRINGFIELD, ILL., HAS FOOT OF SNOW TODAY. SPRINGFIELD, ILL., Jan. 31.—A foot of snow fell here today. Trains are late and wire communication is difficult.

BREMNER'S CASE IS DISCOURAGING. Congressman Undergoing Radium Treatment for Cancer Has Sinking Spell.

BALTIMORE, Jan. 31.—The general belief that Congressman Robert G. Bremner of New Jersey was recovering from cancer through the administration of radium in Dr. Howard A. Kelly's sanatorium was shaken yesterday when it became known that early in the day he had suffered a sinking spell. His condition was so serious that his sister, Miss Rose Bremner, was summoned from Washington and spent the day at her brother's bedside. When Mr. Bremner rallied shortly before 6 o'clock last evening, Miss Bremner returned to the capital.

Dr. C. F. Burnham, who in Dr. Kelly's absence has charge of the patient, issued a statement that Mr. Bremner was resting comfortably and that there was no reason for anxiety. It was admitted, however, that earlier in the day hope practically had been abandoned. The patient was in a state of coma for several hours. No application of radium was made yesterday owing to the patient's weakened condition.

PRESIDENT NAMES PHINEY FOR THE OFFICE

According to a Washington dispatch, President Wilson yesterday sent to the Senate the name of J. A. Phiney to be postmaster at Tustin. The Tustin office was recently taken from a fourth class office and made a third class office, with the salary for the coming year fixed at \$1100. Phiney had no opposition in his application for appointment. At present he is proprietor of a barber shop at Tustin.

Autos Enough to Carry All the People in Town

Pasadena has so many automobiles that if the necessity arose the entire population could be placed in the cars and make a quick getaway. "There is a car there for every eight people," said H. J. Sears, representative of the Automobile Club of Southern California. "The whole population of Pasadena could get in those cars and 'beat it' right away. It is the only city in the country that could do it. By putting eight people in a car, the entire population could get out of town."

This means that the number of autos in Pasadena is about 5000.

WOMAN WATCHES BY SIDE OF DEAD

Miss Nannette Warren Loses Mind by Sister's Death—Conceals Death Ten Days

LOS ANGELES, Jan. 31.—With her mind shattered by her sister's death, Miss Nannette Warren tried to starve herself in a room where her sister's decomposing body lay for ten days, according to the firm belief of the police. The body of her sister Mary was buried today.

The women had been inseparable, and no one knew that Miss Mary was dead until a suspicious odor from the apartment of the Warrens led to an investigation and the dead body of Miss Mary was found with her starving sister at her bedside. Her mind is hopelessly gone, say the doctors. She will be examined by a lunacy commission and sent to Patton unless relatives are found. The woman left valuable diamonds and clothing, which will be sold to aid in the surviving sister's comfort.

U. S. OWNERSHIP INCOME TAX IS WIRE SERVICE IS URGED

Burleson Says Government Should Acquire Telegraph and Telephone Lines

SHOULD BUY ALL 'PHONE LINES BUT THE FARMERS'

Says Private Ownership Lines Are Conducted for Classes; Those of U. S. for Masses

WASHINGTON, Jan. 31.—Government ownership of telegraph and telephone lines was recommended today in a report to the senate by Postmaster General Burleson. The recommendation was in answer to a resolution introduced by Norris of Nebraska asking that the postal department collect information regarding these services.

After furnishing the desired information Secretary Burleson's report said that congress should declare a government monopoly of all means of communication, and acquire by purchase all telephone lines except the farmers' lines, and authorize the postmaster general to issue at his discretion revocable licenses for operation by individuals or companies such part of the telegraph service as the government may desire to acquire.

The report also recommended the government ownership plan of Lewis of Maryland, adding that "under private ownership of telegraph and telephone lines are for the classes; conducted through postal machinery they would be in the interests of the whole people and the benefits would soon be extended to the masses."

"It is obvious," the report said, "that the longer government acquisition of communication facilities is deferred the greater will be the cost. Moreover, it is an economic waste to permit private enterprise to build up vast properties which eventually must be taken over by the government."

"There is a radical difference between public and private monopoly in extending its service. The dominating factor with the government is the needs of the people. With private monopoly, profit is the only consideration. In fixing rates, the government must see only that the service as a whole is self-supporting."

Burleson said the entire network of wire systems are worth \$900,000,000, but claimed the cost to the government would be less as it need not acquire the exchange buildings and similar property.

OPINION GIVEN ON RESERVE CLAUSE

Baseballdom Interested—Joe Tinker Wins Contract for Salary He Demanded

NEW YORK, Jan. 31.—That the reserve clause of organized baseball contracts is legal, is the opinion given to President Tener of the National Baseball League by Attorney General Bell of Pennsylvania. President Tener said Bell had been considering the matter for weeks, and the opinion was rendered only after careful investigation.

President Ebbetts of the Brooklyn club today announced that he has sent Joe Tinker a contract calling for the salary of \$7500 annually, which Tinker originally demanded. Tinker is now manager of the Chicago Federals, but unless he decides to play with the Brooklyn club, President Ebbetts says he will carry the case to court.

GOVERNOR TO BE HERE 20TH

S. J. Jackman, chairman of the Progressive County Central Committee, today received a letter from Meyer Lissner stating that in the tentative program for Governor Johnson's tour of Southern California, Friday afternoon and evening, February 20, has been set apart for Orange and Santa Ana. An afternoon meeting will be held at Orange and an evening meeting here.

HOME OF EDWARD BEARDSLEY, N. Y. FARMER, WHO HELD OFF A POSSE FOR MORE THAN WEEK

This is the home of Edward Beardsley, a New York state farmer, near Jamestown, who for more than a week held off the sheriff of the county and all the citizens he could arm. Beardsley was a character of the county, who had nine children in his household, the mothers of whom were believed to be two sisters who lived in his house.

After shooting the overseer of the poor, who went to the house to remonstrate about the care given the children, Beardsley barricaded himself and announced he would not be taken alive. He had the children in view of the besieging posse, so the members of it knew if they tried to take the home by assault they would likely kill or wound several of them. But a hotelkeeper, with whom Beardsley was acquainted, walked into the house and had a talk with the man, who kept him covered for hours. When Beardsley placed his weapons on a table the hotel man grasped the guns, and then very easily captured the outlaw, who was locked up in jail.

aries paid by the state are exempt.

"Increase in value of property is counted as income, and may be accounted for year by year or the increase over a period of years may be accounted for in one year. This will be done if on your books you have counted your original investment as capital."

"There will be no question raised as to the truthfulness of your return unless there is something suspicious about it, or unless some of the government secret agents find something concerning you that leads to an investigation."

"For failure to report on time, fines from \$20 to \$1000 may be imposed by the collector."

"In deducting for depreciation there is no fixed rule, depending upon the property. You will be the judge."

"In case a person dies, the executor or administrator must make a report. The tax must be paid by report Jan. 13. The best method is to pay when you report on or before March 1 of each year. Your report is based upon the income for the year ending Dec. 31."

The collector said that the system would raise \$110,000,000 in the United States. He said that some statisticians had reported that John D. Rockefeller would have \$2,117,000 to pay, and it was generally added that that was about \$2,000,000 more than he had ever paid before. He said that the 114 men who pay the highest amounts pay altogether more income tax than the 286,000 at the bottom.

FEAR IS FELT FOR TWO AMERICANS

Fail to Show Up at Ensenada After Release from Jail—Terrazas Tortured

SAN DIEGO, Jan. 31.—W. P. Harwood, an Oakland newspaperman, and Mortimer Mills, Americans, had not arrived at Ensenada today, according to a dispatch from American Consul Guyant. They were taken from jail there on Wednesday by a squad of soldiers after a protest made over their arrest.

Terrazas, Jr., Tortured

EL PASO, Jan. 31.—Members of the Terrazas family in Chihuahua City have arrived at the border with tales of suffering which equal those of the Spaniards during the Inquisition. They assert that Don Luis Terrazas, Jr., who is being held as a prisoner by Villa's men in Chihuahua City, was hanged by the neck until he was almost strangled and then forced to show where all the Mexican gold from the Banco Minero was hidden in the city.

STATE'S BANKS IN FINE CONDITION

SAN FRANCISCO, Jan. 31.—The state banking report of Commissioner Williams, issued today, shows that banks are in a flourishing condition generally. The report was dated December 24. RADIUM BILL OFFERED BY FOSTER

Provides for the Purchase and Refinery of Radium Ores by Government

ASKS APPROPRIATION OF \$150,000 FOR REFINERY

\$300,000 for Expenses—Sale of Ores Other Than to U. S. to Be Penalized

WASHINGTON, Jan. 31.—An appropriation of \$150,000 to equip a radium refinery was asked in a bill introduced in the House of Representatives today by Chairman Foster of the House Mines and Mining Committee. An additional \$300,000 to carry on the work until June, 1915, was also asked.

The withdrawal from entry of all radium-bearing lands was eliminated from the bill. Instead it reserves to the United States government the right to purchase exclusively at rates to be established on January first and July first annually, all radium ores or claims hereafter located.

The bill provides that prospectors shall develop "with all reasonable diligence," all claims on the penalty of losing them. The sale of ore to any one but the government will be punishable by a fine of twice the amount of the value of the product sold. The bill authorizes the secretary of the interior to dispose of "all refinery products" in such manner "as will best serve the interests of the people."

FUGITIVE GIVES HIMSELF UP AFTER TWO YEARS' FLIGHT

ST. LOUIS, Jan. 31.—A man who said he was Edward C. Williams, a former councilman of Camden, N. J., surrendered to the police Thursday night and asked to be sent back to Camden, where he is wanted for forging the names of three of his best friends to checks for \$20, \$60 and \$80 in 1911.

Williams said he had been a fugitive from justice for more than two years, and was finally driven to surrender by a desire to see his wife.

He told the police he was a delegate at the convention which nominated Woodrow Wilson for governor of New Jersey.

PRESIDENT NAMES TWO FOR INTER-STATE COMMISSION

WASHINGTON, Jan. 31.—President Wilson today sent to the senate the nominations of Winthrop Daniels of Princeton, N. J., and Henry Hall of Colorado Springs, to be members of the Interstate Commerce Commission.

DENIES HE VOICED EXPECTATIONS FOR 1916 PRESIDENCY

WASHINGTON, Jan. 31.—Speaker Champ Clark said yesterday that nothing in his Baltimore speech Thursday night could be considered as indicating that he figured on being a presidential candidate in 1916 or any time in the future.

"The only thing I said about the presidency," said the Speaker, "was in reply to a long, flowery introduction of the toastmaster. I said that if all that the toastmaster said was true, I ought to be president today and would be, if the proposed primary had been in force in 1912."

TWO FOUND GUILTY BY HOP RIOT JURY

MARYSVILLE, Jan. 31.—The jury in the Wheatland hop riot case returned a verdict finding Richard Ford and Herman Suhr guilty of murder in the second degree, and acquitting William Beck and Harry Bagan.

Bundy, who is but 18 years of age, was found guilty at 8:45 last night by a jury in Judge Willie's court of murder in the first degree. No recommendations were made by the jury. He will be sentenced Tuesday.

LEWIS BUNDY IS GUILTY, SAYS JURY

18 Year Old Murderer of Harold Ziesche to Be Sentenced on Next Tuesday

LOS ANGELES, Jan. 31.—"I am game," replied Lewis Bundy, the murderer of Harold Ziesche, to the question if he was afraid to die. He declared he is not afraid of death and that he does not believe in God or a hereafter. He thinks electrocution should supplant hanging. Bundy said he regrets to die only on his mother's account, and that she alone "understands." He wants to get to prison in time to play a few ball games with the prison team.

Bundy, who is but 18 years of age, was found guilty at 8:45 last night by a jury in Judge Willie's court of murder in the first degree. No recommendations were made by the jury. He will be sentenced Tuesday.

CROOKSHANK-BEATTY COMPANY

A NICKEL WORKS WONDERS AT THE DAWES HOTEL IN CHICAGO

**Buys Bed, Bath, Nightie and Cleanliness--
Another Nickel Buys Good Food--
Place "Full to the Roof"**

CHICAGO, Jan. 30.—The "price of a beer" will work wonders at the Rufus Dawes Memorial Hotel, recently opened to the public and a clientele made up largely of members of the great army of the unemployed. For a single nickel, you can get a bed for the night, a bath, a shine, a shave and have your clothing fumigated. A night shirt is provided free of charge for every lodger.

In the hotel restaurant another nickel will move the following assortment of food your way—a beef stew with potatoes and vegetables, a cup of coffee with milk and two fat rolls. If you want a change in menu, you can ask the gentlemanly waiter to bring you a bowl of soup instead of stew. For ten cents you can get a "private room," but according to W. D. Taylor, manager, few of the regular guests squander a dime on such a luxury unless the dormitory rooms are occupied.

The new hotel was built by Charles G. Dawes, Chicago banker, as a memorial to his son, who lost his life on Lake Geneva, Wis. The original investment was \$100,000. Receipts thus far have run far below operating expenses, but Dawes said today he "guessed he could stand the drain."

There are 95 "private rooms" in the new hotel, and two dormitories accommodating 504 men, giving the place a total capacity of 599 guests. Walls and floors are of concrete and are washed each day by powerful streams of water to prevent accumulation of dirt and vermin. The guest at the Dawes hotel plasters his name on the register with all the dignity

of a guest at the Hotel La Salle. If he deposits a dime for a "private room," he is given a key; if his is to be a nickel night, he is assigned to one of the dormitories where double-decker beds line the rooms. An attendant escorts the new arrival to the bathroom and gives him a check when he surrenders his clothes. The clothes are taken to the fumigating room, while the lodger rids himself of surplus dirt under a shower. Another attendant brings him a "nightie" and he is put to bed between sheets—real sheets and fresh from the laundry—while his head reposes on a pillow covered by a snow-white slip.

In the morning the clothing, thoroughly fumigated and ventilated, is returned to the lodger. An attendant hands him a safety razor, a shaving brush and a cake of soap. Shaving is not compulsory; neither is the guest forced to use the little cake of shoe-blackening handed him, but all around are cards reminding him that the "spruced up" man stands the best chance of landing the job.

"We have been 'full to the roof' since the place opened," said Manager Taylor, who studied sociology before he took the job. "Mr. Dawes is satisfied and I am satisfied that the experiment is proving a success. All some of these fellows need is a chance to clean up and look like men when they search for jobs."

Hogan's "flap house," the municipal lodging house, and other hotels that catered to the "down and outs," report a big slump in business since the opening of the Dawes hotel.

all interested in any phase of fruit culture.

Every morning from June 1 to 6 there will be lectures upon some of the most important aspects of the producing and marketing of fruit. There will be several simultaneous lectures, so that members may choose between such subjects as the soil and its treatment, marketing, irrigation, the labor question, protection against pests and injuries, etc.

The afternoons will be devoted to conferences or meetings for the discussion of the growing of special crops, problems of particular interest, or gatherings of organizations of any sort connected with fruit-growing. Any number of these conferences may be going on at the same time.

The evenings will be devoted to popular lectures on these subjects of greatest general interest and importance, according to the plan followed in previous conventions. For these various meetings some of the most prominent men connected with fruit growing and marketing are to be secured from all over the country, in addition to local men.

A special feature of the convention will be the series of conferences upon subjects of interest to special groups of fruit raisers and farmers. Several of these conferences will be in session at one time, in order that everyone may find some subject in which he is vitally interested. The conferences will be led by some prominent grower or specialist or by some member of the State Horticultural staff of the University.

A paper will be presented upon the subject under consideration, after which the rest of the period will be given over to a round table discussion by the members present. It is hoped in this intimate and informal way to get at the heart of the subject under discussion, and to give everyone an opportunity to secure the specific information desired.

Suggestions of subjects for these half-day conferences will be welcomed. The following are some of the subjects already suggested: Walnut culture; the propagation, planting and cultivation of olives; methods and distribution of cotton cultivation in California; labor problems of the fruit ranch; how immigration will affect the fruit raiser; control of weeds; pear blight; possibilities of fruit growing for women.

Oriental Problems

What effect is China, with its four hundred million people, going to have on the rest of the world? Since this is one of the greatest problems of today, the University of California has invited the distinguished explorer and orientalist, Dr. Berthold Laufer, to come to the University from Chicago, where he is now of the scientific staff of the great Field Columbian Museum, to lecture on March 2, 3 and 4, on China. This famous anthropologist has spent a number of years exploring in the interior of China, in Tibet, and among the aboriginal tribes of the vast Amur river basin. He has published many volumes on Tibetan and Chinese religion, art, literature, and ethnology, and is a member of numerous an-

thropological and orientalist societies.

Drilling and Pumping

How to drill an oil well, how to control a gusher, how to pump, store, transport and refine petroleum—these subjects are now to be taught by the University of California.

The College of Mining has just announced this new course in the mining and handling and refining of petroleum, by Professor E. B. Durham. Students wishing special preparation for the promising career of oil engineer may have university instruction also in the chemistry of oils, from Professor Edmond O'Neill; in invertebrate palaeontology, which is indispensable to anyone who would understand the geology of oil-bearing regions, from Professor J. C. Merriam; and in gas engineering, including the production of gas from California oils, gas engines, and the new developments in direct combustion engines, such as the Diesel engines, which promise such marvels of economy and efficiency. These new methods of getting energy direct from the burning of California oils, without the wasteful and roundabout step of making steam, mean that in a few years the steamer will have disappeared from the sea, just as the steamer supplanted the sailing ship. Involved also is the probability that electricity can be generated from California oils by dynamos driven by direct combustion engines at a cost well nigh as low as the cost of making electricity from the great mountain-water-driven electric generating plants.

A series of six University Extension lectures on the origin of the oils of California, their chemistry, and the engineering problems of the oil industry, including gas production and the Diesel engine, have been planned by the university and are to be given in several California towns during the spring.

FRUIT GROWERS CONVENTION AT THE UNIVERSITY FARM

UNIVERSITY OF CALIFORNIA, Jan. 31.—The farmers themselves have joined the "back to the farm" movement, for now the California State Fruit Growers' Association has

decided not to go to town for its next annual convention, but to meet at the University Farm at Davis, under the auspices of the State Commission of Horticulture and the Yolo County Board of Trade.

Instead of the past practice of holding formal meetings for three days, the fruit growers of the state will spend the whole first week of June at their convention. It is believed this new plan will bring together a larger gathering of fruit-growers than has been customary, and that it will prove of great interest and value to

CELEBRATION IS POSTPONED

Huntington Beach's Pier Festivities Will Occur Probably in April

Huntington Beach News: It was the prevailing sentiment at the regular meeting of the Board of Trade held here at the city hall Monday evening that the celebration of the completion of the pier in this city be deferred until later than the day already selected and the new date will shortly be decided by the entertainment committee of the board. It is probable that some date in April will be chosen. Features of the program of the day already discussed, besides the now practically assured presence of a United States battleship, were a flight by some well-known aviator, a street carnival and races and the laying of the cornerstone of the pier by the Masonic grand lodge of California.

Ripe Raspberries
John Heaston, at his home on Seventeenth street, near the city limits, is enjoying his second crop of raspberries grown in a single year—winter raspberries. He gathered his first crop last spring and has been gathering the second ever since Christmas. Mr. Heaston also had a second crop of apples in one year. The fact is only one of many evidences of the wonderful fertility of the soil around Huntington Beach.

Work is Delayed
City Engineer Spencer states that the work of preparing plans for the improvement of Main street to the city limits can go no further until the Southern Pacific Company decides how its crossing shall be built at Seventeenth street. The present street is excavated about nine feet and eight feet more must be excavated to bring it to grade, so that the street will be seventeen feet under the railroad track. The running of cars above the street will be a measure of safety where there is now a decidedly dangerous crossing. The delay on the part of the Southern Pacific company is partly due to its indecision in regard to the material of which its crossing shall be constructed.

According to the city engineer, it is not likely that the matter will be decided for several weeks and the work of improving Main street will be proportionately delayed.

SANTA ANA WOMAN FELL FROM A CAR

Huntington Beach News: Mrs. H. Fetters of Santa Ana was injured late Thursday afternoon while stepping from a moving car of the Santa Ana electric line at the Main street depot here and was removed to the office of Dr. G. A. Shank for treatment and later taken to the home of Mrs. Harshman on Seventh street, where she was an expected guest. Mrs. Fetters in getting off the car upon its arrival here, left her gloves on a seat and went back to the car to get them. While getting ready to step off again the car started, neither conductor nor motorman knowing of Mrs. Fetters' intention to leave it, and she was thrown heavily to the ground. She suffered chiefly from the shock.

The 'Mischievous Quartette' and Its Work
—Each year the month of January numbers its list of victims from influenza, la grippe, bronchitis and pneumonia. La grippe coughs seriously weaken the system and when they hang on, are a sign of general debility. The use of Foley's Honey and Tar Compound will promptly check the cough, heal the inflamed air passages, preventing the development of la grippe to a more serious condition. Keep it on hand. Contains no opiates. Wingood's Drug Store.

HEAVY MEAT EATERS HAVE SLOW KIDNEYS

Eat Less Meat if You Feel Backache or Have Bladder Trouble

No man or woman who eats meat regularly can make a mistake by flushing the kidneys occasionally, says a well-known authority. Meat forms uric acid which excites the kidneys, they become overworked from the strain, get sluggish and fail to filter the waste and poisons from the blood, then we get sick. Nearly all rheumatism, headaches, liver trouble, nervousness, dizziness, sleeplessness and urinary disorders come from sluggish kidneys.
The moment you feel a dull ache in the kidneys or your back hurts or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, stop eating meat and get about four ounces of Jad Salts from any pharmacy; take a tablespoonful in a glass of water before breakfast and in a few days your kidneys will act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate the kidneys, also to neutralize the acids in the urine so it no longer causes irritation, thus ending bladder weakness.
Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep the kidneys clean and active and the blood pure, thereby avoiding serious kidney complications.—Advertisement.

RAN AWAY, GAME HERE TO BE MARRIED

Los Angeles Times: Because the flood-tied mails had kept their parents in ignorance of their whereabouts for four days, two runaway Los Angeles lads, Delmar Lord and Mildred stance Rutherford, were not given a royal welcome when they returned to their homes yesterday after their brief honeymoon in Orange county. In fact, Mrs. Rutherford stated that she would be glad to turn her daughter over her knee and give her a good spanking. Similar sentiments were expressed in the other household.

The four young people planned the elopement because of their tender age. Lord, who lives at No. 221 East Thirtieth street, is 19, and his bride 17; Forster is 22 and Mrs. Forster 18. The four left on Sunday. Monday passed and the parents had received no word from the girls, who were supposed to have spent the Sabbath at each other's homes. As two more days passed their anxiety increased. When at last letters arrived announcing the double wedding by Justice Cox at Santa Ana, their relief was so great that they were torn between the joy of knowing of the safety of their children and the keen desire to teach the youngsters a lesson in the good old-fashioned slipper.

However, Mr. and Mrs. Forster were given a dinner by the bride's mother last night at the Rutherford home, No. 351 East Thirty-third street, and Mrs. Lord was similarly reconciled with her parents, who reside at No. 1942 Santa street.
The young people expect to take adjoining flats. Both girls said yesterday that while they do not know how to cook or do housework, they are willing to learn.

SUGAR BEETS AT TALBERT LOOK FINE

Japanese Has Gone to San Francisco to See What Wife Looks Like

TALBERT, Jan. 31.—The beet crop is coming up fine now and good stands are reported. However, a large acreage is yet to be planted. The gophers are giving lots of trouble to the crop already planted. Some of the ranchers are not putting in as big a crop as they had last year on account of the reduction of the price.

Early last Monday morning S. E. Talbert was called over the phone by F. C. Planchon and instructed that the Santa Ana river was about to break over at the Talbert bridge. Mr. Talbert at once got his teams and men together and went to the place and found the water almost ready to break over. They worked all day Monday and Tuesday and a part of Monday night, but it broke over on the east side in spite of all they could do; however there was no damage done. The pile driver that had been used by the highway commission company in constructing the concrete bridge was almost covered with sand, but there was practically no damage done to the bridge, aside from some of the braces being washed from under the bridge. The water was over the bridge of the Pacific Electric Tuesday and some of the officials were out from Los Angeles, and after seeing the condition of things, they discussed the matter with Contractor S. E. Talbert about putting a span bridge over the river at this point. The only thing that saved us from being flooded was the faithful and efficient work of S. E. Talbert and men.

Last Saturday night F. Noret, a Japanese living on Mrs. W. D. Lamb's place, lost his infant boy by death. The child was one month old and was buried in the Huntington Beach cemetery.

Robert Harper has been confined to his bed several days this week, but is able to be up.

Claude Swift, who is in school at the University of Southern California, spent last Saturday and Monday with his parents.

Mrs. Sam Clapp is having fine success raising chickens. She took off nearly one hundred Plymouth Rocks the other day.

T. Kataoka, a Japanese living one mile east of Talbert, has gone to San Francisco to meet his new wife whom he ordered from his country.

Mrs. Phil McClintock is spending this week in Los Angeles with friends and relatives.

GAMBLING SYSTEMS

Dr. E. V. Appleby, formerly a lecturer at the University of Minnesota, testifying in a pending court case, says he has made money consistently by wagering on the gaming tables at Monte Carlo. He claims that his carefully worked out system in one year paid him \$50,000.

It would be impossible to compute the human energy and even human life that has been given to devising gambling systems to beat Monte Carlo and other famous gambling houses. Some people claim to have made money by keeping careful records of the stopping places of roulette wheels and balls, thus learning the peculiar tendency and idiosyncrasy of the mechanical device.

If a wheel seemed to be losing because some one had learned its tendency, it is an easy thing to shift wheels every night. In 1896, a system was successfully worked at Monte Carlo by a woman who had studied the eccentric results produced by the warping of a roulette wheel. The management never lost but once from that system, as afterward the wheels were tested nightly.

If a gaming place continues in business day after day, and makes money, its system must be securely founded on the law of chance, sure to net the house a steady profit. It is like giving money away for the public trust to take the wrong end of these hazards.

Whenever a big haul is made at a gaming place, the management rejoices. It knows that in nine cases out of ten, the money will be won back soon, and more too. Then too, the railroads will be crowded for days by the motley crowd that is incited to try its luck.

The willingness to take some chances is a good trait. No kind of business could prosper without it. In productive enterprise, backed by intelligence and industry, the chances are very strongly in your favor. At the gaming tables they are always surely against you.

NOT NEW DISTRICT BUT JUDGE WANTED

Rather impatiently, the esteemed San Bernardino Sun asks, Why shouldn't a new federal judicial district be formed in Southern California? adding, "Must all of the southland be continually under tribute to the big city?" Of course, it is not a question of "tribute" to any locality that is the governing consideration. The sole matter to determine is of relief to an overworked federal judge and the expediting of litigation now in arrears, which the appointment of an additional federal judge would bring about. Carving out a new district to follow the lines of Representative Kettner's congressional district would hardly afford much relief, since, as we have shown, but little of the federal court business originates in the interior territory proposed to form the new district.

Surely, the esteemed Sun is not serious in imagining our opposition to the formation of a new district as contrasted with the naming of an additional judge in Los Angeles, to be of selfish origin? Wholly aside from Judge Bledsoe's candidacy or fitness is the necessity first of relieving the present overworked federal court files. We have no candidate to present or to serve, but we do know of many litigants whose cases Judge Wellborn is unable to reach because of the excess of work in his court. A new district would be of little service in removing the congestion as any lawyer having occasion to try a case in the federal court can inform our contemporary.

We have good reason to believe, however, just as we stated in these columns the other day, that Representative Kettner's influence is retarding the bill now in the subcommittee of the house judiciary committee and that the San Diego man wants to amend the senate bill by the formation of a new district. If this is attempted the amended measure will be defeated in the senate is our inside information from Washington. Moreover, if a new federal judicial district is ever formed it should comprise the central counties of the state and not the illogical inverted L-shaped district proposed by Kettner. We ask the esteemed Editor Harbison to ponder these facts which must make special appeal to his broad judgment.—Pasadena News.

PROPOSED WATER COMMISSION LAW

From an Address Before the Los Angeles City Club, by Former Governor Geo. C. Pardee, Chairman of the State Conservation Commission.

That California's existing water laws are chaotic, wasteful and expensive, is proven, first, by the fact that there is a class of California lawyers known as "water-law specialists;" second, by the fact that enormously expensive suits over water rights have been, still are and will be common in this state under existing conditions; third, that everybody who has a water right must be prepared, at all times, with shotgun or lawyer, or both, to defend it; fourth, that because our present water laws are mostly court-made and the court decisions have been and are being modified and changed, no man can tell, except at the end of an expensive lawsuit, what the California water laws are.

Even when once adjudicated, every water right may be the subject of lawsuits as often as anybody wants to sue the possessor of it. Ellwood Mead, the world-famed water expert, speaking of California conditions, says: "There can be no stability under the present situation. The law affords no means of enforcing a right, when once adjudicated, except through another lawsuit. Litigation and controversy are forced by the law. The whole system is wrong in principle as well as in procedure."

Under our present system a suit to settle water rights settles only the interrelated rights of the parties to the suit. If A sues B and gets a decree for 1000 inches of water, that decree is good only until C gets a judgment for that same water.

If there be five water-claimants on a stream, the water rights on that stream cannot be said to be settled until each of the five claimants has sued or been sued by every other claimant. And each new claimant who may appear—and there is nothing to prevent him from appearing except his inability to bear the expense—adds another series of possible lawsuits to the troubles of the original five. Ten claimants on a stream require 45 lawsuits to adjudicate their interrelated rights; 20 claimants must be parties to 190 suits before all their rights are settled.

It is said that water rights in Southern California are all determined and settled, and that, therefore, you have no need for a change in the California water laws. Every water-user in Southern California is, being subject to the California water-laws, in a state of armed neutrality, watching every other water-user, so that his own "already settled" water rights may not be taken from him. And there are now on the dockets of the Southern California courts many expensive, heart-breaking lawsuits to "settle" the "already settled" water rights of Southern California.

Protected by the investigations of a California Water Commission and by an inexpensive, wholesale decision of the courts, as proposed by the referendum Water Commission law, the water users of Southern California could, as the water users of Oregon and Wyoming can, sleep o' nights and wouldn't have anywhere near the use for lawyers' services they now have, have had and will have under present conditions.

Oregon, Wyoming and other states have substituted for the present California system, Water Commission laws, similar to that which, passed by the last California Legislature, has been hung up by a referendum. The Oregon law has been in operation four years, during which the Oregon Water Commission has settled over 1000 water rights, and not a single one of the claimants, whose rights the commission has settled, has appealed from the commission's decisions to the courts. In Wyoming there has been a Water Commission law for 20 years, during which the commission has settled over 15,000 water rights; and only 10 of the claimants have appealed to the courts from the commission's decisions.

Who knows how many hundreds of expensive water-right suits there have been in California during the last 20 years?

The Oregon and Wyoming Water Commissions have settled the 16,000 water cases at an average cost of \$10 per claimant. How many hundreds of thousands of dollars have been spent by California water users in defending their water rights in the last 20 years? And the California water rights that have been thus expensively litigated have not been finally settled; while the Oregon and Wyoming rights, inexpensively settled by Water

Commissions, are settled.

How many more hundreds of thousands of dollars will the California water users be compelled to spend in the next 20 years to defend their water rights, if this state, rejecting the referendum Water Commission law, continues under its present lawyer-and-court method of adjudicating water rights?

In less than a dozen of the counties of California, including Southern California, there were, three months ago, nearly one hundred active, unsettled water-right suits before the courts. Most of them were fiercely contested, enormously expensive, and, in fact, a party to which is generally a power or a water company. Under the referendum California law, as is the case in Oregon and Wyoming, these suits would not be necessary. In California every water right claimant, every water user may be, at any time, compelled to defend his right, not once but many times. In Oregon and Wyoming, water rights, once settled by the Water Commission, are settled for good, and settled quickly and inexpensively, as they will be settled in California when the referendum Water Commission law is approved next November by the people.

When this law was before the California Legislature a year ago, it was fought by a lobby, at the head of which was the legal representative of an association of power and water companies. The proposed law recognizes, in terms, the vested, legal rights of all water users. But it will deprive, as it ought to deprive, every body of water rights to which he has no right. Water in California is already too valuable, too necessary to the progress and prosperity of all the people of this state to permit any individual or corporation, illegally to take and hold water without using it or permitting anyone else to use it. But that is just what many persons and corporations have done, are doing and want to continue to do in this state, as they did in Oregon and Wyoming before those states created Water Commissions. Only those who are doing or want to do such things would have interest enough in opposition to the California Water Commission law to hire lobbies and circulators of referendum-petitions against the California Water Commission law.

The referendum petition against this law was circulated, among other places, in the red light districts of San Francisco, Los Angeles and other cities. The circulators were paid five and ten cents per signature, and the campaign was conducted by the same lobby that fought the law in the legislature. At the same time a referendum petition against the Red Light Abatement law was also circulated. It is well known that many, many hundreds of signatures to both petitions were forged—enough, probably, to invalidate both petitions if the forgeries were stricken out of them. Similar tactics were employed two years ago in getting up the initiative petition to legalize racetrack gambling. Wholesale forgery and perjury, therefore, have already become recognized methods of initiating and referendum laws in this state.

There are two ways in which this practice may be discouraged. One way is to send to the penitentiary every forger of signatures to direct-legislation petitions. This, however, requires the cooperation of district attorneys. But even the district attorney of San Francisco, who has declared that he has indisputable evidence of such wholesale forgeries and perjuries, refuses to take action. It would appear that such crimes against the people are not considered to be very reprehensible by certain officials whose sworn duty it is to bring criminals to justice.

The other and, so far, apparently the only method by which decent, honest law-abiding citizens may discourage such felonies is by voting in favor of laws that have been fraudulently and feloniously referendumed. This ground alone ought to be sufficient to enlist the active support of every honest person in favor of the Redlight and Water Commission laws which have been held up by referendum petitions. Either that, or forgery and perjury will become a fashionable, remunerative and well-recognized California industry.

AFTER FLOOD TALK FORMING A DISTRICT

Ranchers on East Side of River Are to Hold Meeting Monday

ORANGE, Jan. 31.—Since the Santa Ana river broke over near Olive during the last flood and covered a section of country all the way from Olive to West Orange, ranchers have begun to talk over the advisability of forming a protection district. Last Thursday about twenty of the ranchers met at the place where the break occurred, and held an informal meeting, with D. B. Crawford as chairman. L. C. Flippen, Dr. John Adams, Minnick and Carl Crawford were appointed a committee to look into the matter and report at a meeting of east-side ranchers to be held at Olive next Monday.

It is proposed by this movement to form a district on the east side only to build a dike to protect that side.

"CASCARETS" ALWAYS STRAIGHTEN YOU UP

When Constipated, Headachy, Bilious, Stomach Sour, Breath Bad

Get a 10-cent box now. You men and women who can't get feeling right—who have headachy, coated tongue, foul taste and foul breath, dizziness, can't sleep, are bilious, nervous and upset, bothered with a sick, gassy, disordered stomach, or have backache and feel worn out. Are you keeping your bowels clean with Cascarets, or merely forcing a passageway every few days with salts, cathartic pills or castor oil?

Cascarets work while you sleep; cleanse the stomach, remove the sour, undigested, fermenting food and foul gases; take the excess bile from the liver and carry out of the system all the constipated waste matter and poison in the bowels. A Cascaret tonight will straighten you out by morning—a 10-cent box from any drug store will keep your stomach sweet; liver and bowels regular, and head clear for months. Don't forget the children. They love Cascarets because they taste good—never gripe or sicken.—Advertisement.

A Difference in Working Hours
—A man's working day is 8 hours. His body organs must work perfectly 24 hours to keep him fit for 8 hours' work. Weak, sore, inactive kidneys can not do it. They must be sound and healthily active all the time. Foley Kidney Pills will make them sound and well. You can not take them into your system without good results following their use. They are tonic in action, quick in results, and contain no habit-forming drugs. Try them. Wingood's Drug Store.

FOR DEBATING TEAM

Miss Louise Grubbs Gave Dinner for Those Who Upheld High School Honors

Miss Louise Grubbs was hostess at a dinner given last evening at 7 o'clock at the W. L. Grubb home in honor of the High School debating team. Cardinal and white, the high school colors, were seen in the table and house decorations. Pennants were used profusely, and the table was graced with candelabra shaded in red. Those at the table were the hostess, Miss Grubbs, the debating coach, Miss Kistler, Miss Ruth Harding, Miss Nettie Crutcher, Miss Vada Wall, Messrs. Donald Stevenson, Stanley Mansur, Beverly Anderson, Raymond Adkinson, Keith Davis and Bruce Wallace.

Toasts were given to Miss Kistler by Miss Grubbs, and to Raymond Adkinson, recently elected president of the student body.

Following the dinner short novel-ettes were written by the young ladies, the gentlemen assisting. Miss Kistler was awarded the prize for the best of poems. Beverly Anderson was given a copy of Shakespeare as the best assistant. Bruce Wallace then obligingly showed the guests the steps of a new dance, making a pleasant finale to a most enjoyable evening.

Miss Grubbs was assisted in entertaining by her mother, Mrs. W. L. Grubb, and Miss Mary Grubb and Miss Virginia Metzgar very charmingly served at dinner.

Entertained Boyhood Friends
W. A. Price and James Cogswell, capitalists of Cleveland, Ohio, who are guests at the Maryland, Pasadena, while getting acquainted with Southern California, were guests of Mr. and Mrs. J. S. Rice yesterday. They and Mr. Rice were boys and schoolmates together and had not met before for thirty-five years. It may well be imagined how swiftly the hours of the brief reunion flew by.

The visitors were shown the beauties of the magnificent country round about Tustin and it is not putting it too strongly to say that they were more than enthusiastic over what was revealed to them during the ride taken with their hosts. Altogether the visit was one that all of those participating will not soon forget.

Red Ribbon Club

Miss Isabel Lopez was hostess yesterday afternoon to six members of the Red Ribbon Club, an organization composed of ten girls of the fifth grade of Spurgeon school. They had a merry afternoon of games with refreshments of orangeade, Panama cream and fudge. The members of the club present were Isabel Lopez, Frances Pimm, Dorothy Duggan, Dicky Montgomery, Mabel Roberts, Violet Cook, Christine Loveland.

Tustin Christian Endeavor

The Christian Endeavor Society of Tustin announces that the topic for Sunday evening's Endeavor service at the Tustin Presbyterian church will be "Christian Endeavor Progress." The service will begin promptly at 6:30, and all are invited to attend whether members or not. The meeting is in charge of the Look-out committee, the chairman of which, Miss Mabel Logan, will act as leader. There will be a number of special songs, as this is Christian Endeavor Day and the first meeting of Christian Endeavor week.

Philosophy Club

The regular meeting of the club will be held Tuesday evening, February 3, at 7:30, at the home of Mr. and Mrs. A. J. Crookshank. The subject for the evening will be the work of the Society for Psychical Research. The investigations of the Society in regard to spirit communications and mediumistic phenomena generally will receive special attention.

Charmed With Santa Ana

Dr. William Scott and wife and son from Loveland, Ohio, a suburb of Cincinnati, who have been here for a month, went to Los Angeles Wednesday for a few days' stay. They returned today. They are located at 1202 North Main street, the former S. Hill residence. Dr. Scott is a brother of Mrs. Elizabeth Davis and an uncle of Scott Wiles, and also has other relatives here.

The Scotts are charmed with Southern California, liking Santa Ana exceedingly. In fact this country has pleased them beyond their expectations.

AT THE CROSE HOME

Sumptuous Turkey Dinner and Evening of Wholesome Amusement

A delightful affair was the dinner party given last evening by Mr. and Mrs. Charles F. Crose at their Cyprus street home. The rich color scheme of red was carried out with pointstias of gorgeous hue and fragrant carnations of the same vivid tint. The color scheme was developed in the table appointments wherever possible and also in the five course turkey dinner. The cunning nut cups were of red, and the candles in the crystal holders were flame-like in color. This was especially appropriate when after the final course, the electric lights were turned off and the candles lighted for the toasting of marshmallows.

After dinner there was an abundance of music, Mrs. Crose and her sisters-in-law, Mesdames W. H. Crose and Jack Crose, favoring the company with a number of selections. Beside the music and conversation, good old-fashioned games were played, making the evening one of informal and genuine merriment.

The guests of Mr. and Mrs. Crose were Prof. and Mrs. J. A. Cranston, Mr. and Mrs. Chas. S. Kendall, Mr. and Mrs. H. H. Reeves, Mr. and Mrs. Arthur Pease, Mr. and Mrs. George Balderston, Mr. and Mrs. L. J. Carden, Mr. and Mrs. W. H. Crose, Mr. and Mrs. Jack Crose.

Mrs. Crose was assisted in serving by her daughter, Mrs. F. C. Rowland and by Misses Crose and Cranston.

The Husband, Not the Wife

It now develops that it is Mr. Edward M. Nealley who is to address the College Women's Club on Saturday, February 7, on "The University and the Modern Spirit." Instead of his estimable and talented wife, The Register stated Thursday that the College Women, in the expectation of Mrs. Nealley addressing them, had a treat before them. The same remark still applies, even though Mr. Nealley is the speaker scheduled.

Class Party

The A-1 freshman class of the polytechnic held a class party last evening at the J. N. Anderson residence on Westington avenue. Violas and Chinese lilies decorated the rooms.

An honored guest was the class teacher, Miss Wyant. Miss Cecil Fross, the president of the class, was chairman of the arrangements committee. Musical numbers were given by Ralph Beales, Fred Forgy and Mildred Murphy. Games followed the music, and ice cream and cake were served later. Thirty-five young people enjoyed the evening.

Pleasant Afternoon

Mrs. John Buckley was hostess to a few of her friends yesterday afternoon at her home, 1019 Custer street. Ferns and roses were used in decoration of the parlors and the table where sandwiches, fruit, cake and coffee were served.

Conversation and music filled the hours to the satisfaction of the guests. Mrs. Buckley's guests were Mesdames Claude Johnson, Fred Robinson, Will Petz, Owens, Frank Heard, A. H. Robinson, George Fleischman, Harry Hicks.

Free Lecture Sunday Afternoon

Miss Meme Brockway of Los Angeles will give a free lecture tomorrow afternoon at 3 o'clock in the First Methodist church, corner of Spurgeon and Sixth streets. These addresses are given on the first Sunday of each month under the auspices of the Sunday School Union of this city. This is a fine opportunity for all teachers, parents, students and young people to learn the art of story-telling, as Miss Brockway is a gifted teacher and leader. All are invited.

WESTERN ADVISERS ON FINE ARTS FOR PANAMA FAIR NAMED

SAN FRANCISCO, Jan. 31.—A western advisory committee on fine arts of the Panama-Pacific International Exposition was appointed yesterday. New England, New York, Pennsylvania and South Atlantic, and London and Paris advisory committees already have been named. These committees give their assistance in making up the list of the masterpieces of art to be shown in the exposition. William Wendt is the Los Angeles representative on the western committee.

SECOND WALNUT CROP GROWS ON POMONA TREE

POMONA, Jan. 31.—A. A. Black has presented the Chamber of Commerce with a branch containing a half-dozen or more English walnuts of a second crop. The nuts are of normal size, but probably will not be given an opportunity to mature. The leaves on the tree have just begun to fall. Other walnut trees shed their leaves three months ago.

MUNICIPAL SALOON SUCCEEDS

SISSETON, S. D., Jan. 31.—The municipal saloon, taken over by this city when the councilmen decided the city might as well get all the profits as well as the taxes, has proved an unqualified success according to figures made public here today. The emporium is operated strictly according to the ordinances and the one bartender receives his regular weekly pay from the municipal treasury. The plan has turned out to be such a financial plum, that other towns nearby are contemplating adopting it. DeSmet, S. D., will probably put the proposition up to the voters at the annual spring election.

NORDICA IMPROVES SLOWLY

MELBOURNE, (Australia) Jan. 31.—A dispatch received today from Thursday Island says that the condition of Mme. Lillian Nordica is still unsatisfactory, but she is improving slightly. Mme. Nordica recently fell ill with pneumonia following the running ashore in the Gulf of Papua of the steamer Tasman, on which she was a passenger.

\$27,000,000 NEW YORK BONDS DUE

ALBANY, N. Y., Jan. 31.—The state comptroller today was expected to report that New York state will be easily able to meet the payment of the \$27,000,000 of short term notes which matured today. The issue was the first of its kind in the history of the state. It was made last June to relieve shortage in the canal funds.

Phenomenal Demand for Surface Irrigation Pipe Expected by The California Steel Ceiling Company

Owing to the great activity among the ranchers in California and the need for more adequate irrigation facilities, a tremendous call for galvanized surface irrigation pipe is expected by the California Steel Ceiling Company of Los Angeles. Although they have one of the largest and most complete plants on the coast for the manufacture of surface irrigation pipe, they are advising customers to place their orders early to prevent possible delay in shipping during the coming spring rush, which has the most promising outlook of any season in recent years.

The convenient, portable features, the durability, and the extreme economy of surface irrigation pipe has placed it in the front rank of irrigation facilities. The general tendency among irrigators is to eliminate the wasteful dirt ditch and install a system that is inexpensive and yet performs the work satisfactorily. Galvanized Surface Irrigation pipe does not rust, is quickly and easily moved and gives indefinite service.

The California Steel Ceiling Company has met the needs of the irrigator by adding labor-saving devices and improving their pipe so that the product now manufactured embodies all the features of the efficient irrigator could ask for—a pipe of the greatest durability and practicability at an extremely moderate cost.

WILL BE CANDIDATE TO SUCCEED HIMSELF

SACRAMENTO, Jan. 31.—State Controller John S. Chambers announced his candidacy today for re-election to the office he now holds as a candidate upon the Progressive ticket. Chambers was appointed by Governor Johnson to succeed the late Controller A. B. Nye.

In tossing his hat into the ring, State Controller Chambers said:

"I am a candidate as a member of the Progressive party for the nomination of state controller. The controller's office is essentially a big business department, involving the handling of \$25,000,000 of state money a year. I go before the people as a business man and I am willing to have the judgment of the state and county officials and others with whom I have dealt as controller pass upon the efficiency with which my office has been conducted."

Chambers is 46 years old, a native of Kentucky, where he was raised and educated and where he had a wide business and banking experience. He later took up newspaper work and on coming to California in 1895 was made editor of a Marysville newspaper and a few years later the managing editor of a Sacramento newspaper. His newspaper work specialized on the problems of taxation and municipal questions, with a more equal distribution of taxes as his special hobby. It was his work along this line that brought him the appointment by Governor Johnson.

Since assuming office Chambers has brought about rigid enforcement of the inheritance tax laws of California, and has stopped the evasion of taxes and will mean an increased annual revenue of \$500,000 from large estates.

Friends of Controller Chambers in the Republican and Democratic parties are planning the circulation of petitions that will place Chambers upon the Republican and Democratic ballots as well as upon the Progressive ticket.

DINNER TO BRYAN PLANNED

LINCOLN, Neb., Jan. 31.—Although it is doubtful if Secretary Bryan can leave Washington to attend, the annual Bryan birthday banquet is to be held here on March 19, and plans for the annual gathering of Nebraska Democrats on that date are already under way. For years, under the auspices of the Lincoln Bryan Club, the Democratic leader's birthday has been celebrated, the occasion being used as a get-together meeting for Nebraska Democrats. Mr. Bryan always makes it a point to attend if possible, often traveling from a remote part of the country, and he today gave assurance that he will be here this year unless his duties interfere.

16,000,000 IN CHURCH MOVEMENT

CHICAGO, Jan. 31.—Four million members of the 80,000 Christian Endeavor Societies of the United States and Canada, together with 4,000,000 non-member members of the societies, will attend church throughout the two countries tomorrow in the "Go to Church Sunday" movement planned by Christian Endeavor leaders. A. C. Feder of Chicago, chairman of the demonstration committee in the United States, said today that he has received assurances from all over the country that virtually each member will attend church services tomorrow and take at least one friend who is not a member. The observance was planned some weeks ago. Prominent Catholics, Jews and clergymen of other sects and creeds endorsed the movement, and have urged similar observance in their respective churches throughout the country. Chairman Feder today estimated that, added to the 8,000,000 who will attend churches in which there are Christian Endeavor Societies, there will be as many more who will attend the churches of other creeds.

SUGGESTS LIGHTS BE ORANGE SHAPED

A suggestion that is an excellent one has been made to the Register that when Santa Ana selects its cluster lights that the globes be shaped like oranges. It was stated that Riverside has mission globes, Santa Barbara arrow globes, and that Santa Ana should select something distinctive. The matter is hereby referred to the ornamental light committee.

EARL'S SON WEDS MISS ARTHUR-JONES, ACTRESS

OTTAWA, Ont., Jan. 31.—It became known here yesterday that Hon. Angus McDonnell, second son of the late Earl of Antrim, who is guest at Government House, was married at All-Souls' church, Evanston, Ill., on December 13, last, to Miss Ethelwyn Arthur-Jones, second daughter of Henry Arthur-Jones, the English dramatist. The marriage was to have been kept secret until Mrs. McDonnell had completed her engagement with a theatrical company which is touring the western states.

Hon. Angus McDonnell, in former years, frequently visited the Earl of Minto in this city and later his uncle, Earl Grey, former governor-general. He is a fruit rancher, owning a large farm near Vancouver, B. C., where he resides.

FEAR OHIO MINES WILL CLOSE

CLEVELAND, O., Jan. 31.—It was estimated that railroads and other big corporations throughout Ohio today had a larger supply of coal in storage or ordered for immediate delivery than at any time in their history. The action was taken following notice from coal operators that Ohio mines might be closed April 1, upon which date the agreement between coal operators and miners expires. Coal operators also claim

The Orange High School girls won the county basketball championship yesterday by defeating the Santa Ana High School girls on the local court. The score was 14 to 8.

The old champion guards, Hughes and Kuechel, held down the Santa Ana forwards while Watson and Bush piled up a lead on field goals. E. Wickersheim and Kelly played well at center.

The Orange team lined up as follows: Florence Watson and Gladys Bush, forwards; Emma Wickersheim and Bertha Kelly at centers; Edith Kuechel and Henrietta Hughes, forwards.

The Huntington Beach basketball team, champions of Orange county, were defeated last evening by the Orange Athletic Club. The score was 14 to 13.

The game was witnessed by a large crowd, including rooters from both towns. The game was fast from start to finish.

The teams lined up as follows:
Orange—Park and Hart, forwards; Pine, center; Rister and Slater, guards.

Huntington Beach—Livernash and Isnor, forwards; McClintock, center; Linn and Helme, guards.

LOS ANGELES PRODUCE MARKET

The first car of beans brought to Los Angeles from outside of California for many years arrived yesterday after many delays en route from Michigan. The beans were of the old-fashioned navy variety, being a trifle larger than the small whites and a trifle smaller than the Lady Washington. The almost prohibitive price of small white beans has made this importation not only possible but practical, it being possible to sell the eastern stock for less than the home-grown product at this time. There are few of the small whites in the hands of the jobbers, the season just past having been one of very short crop. There were no changes in other varieties, although they are all holding firm under a very good demand and prices look upward, if anything.

Many of the delayed shipments arrived yesterday with the result that the tension on prices slackened considerably and the next few days may see some declines. The receipts of local eggs totaled 473 cases. Prices were firm and trading very active. In San Francisco the market advanced to 37 cents.

Butter was also higher in the northern city, the quotation going to 33 cents. Here the market remained unchanged and the trading active at that.

SIGNATURE OF FULL NAME IS POINT IN CASE

Appeal from Fullerton's Court Involves Interesting Question

When the law says that a certificate of co-partnership using a fictitious name should be signed with the full names of the partners, the law means that the initials are not sufficient.

That is what Justice Fullerton of Orange decided in an action brought in his court, by L. Longworth and T. J. Warnock, doing business under the name of the Anaheim Garage, sued John Irvin of Orange for \$123 for work done for him by the firm. The plaintiff was represented by Attorney P. C. Spencer of Anaheim and the defendant by Scarborough & Forgy and S. M. Reinhaus of Santa Ana. The defendant objected to the certificate of co-partnership, which was filed in order to establish the right of the partnership to sue, on the ground that Longworth and Warnock have signed their initials and not their full names. Justice Fullerton upheld the defendant, and dismissed the action. Attorney Spencer took an appeal, and the papers in the case are now in the superior court.

The ruling of the upper court will be watched with considerable interest, for a goodly number of certificates of co-partnership have been filed in which the partners signed their initials and not their full given names.

On Verbal Agreement.
M. E. Wallace, with Melrose & Ames attorneys, has brought suit against Albert J. Ward. The complaint states that on October 16, 1909, Wallace contributed \$500 and Ward \$1800, and the deed was made out to Ward. Wallace says it was verbally agreed that interest in the land should stand in accordance with the amounts contributed by each person. Wallace asks the court to compel Ward to give a deed to a five-twenty-fourths interest in the land. It is alleged that Ward claims the land and is going to sell it for \$3000.

New Deputies.
S. J. Hansford and W. C. Fogle have been appointed deputy sheriffs without pay.

Sues Bondsmen.
The district attorney's office has commenced suit against Frank Machleb and W. P. Webb of Anaheim to get judgment for \$5000. Machleb and Webb went on Herbert Dyer's bond. Dyer, who was charged with a felony, skipped out, and the court declared the bond forfeited. The Board of Supervisors authorized the suit. Machleb is a harness maker and Webb a painter.

Romero Is Out.
This morning Attorney Steele Finley withdrew his petition for habeas corpus in the case of Mike Romero, who was fined \$200 and who was sent

to jail for not paying the fine. Romero had served ninety-two days on the basis of \$1 a day, when the limit of the sentence for the offense was ninety days. On the recommendation of the district attorney's office, Romero was discharged from jail, thus ending the controversy.

Homestead Recorded.
A declaration of homestead has been recorded by Mrs. M. S. Coomes on lot 11, block B, Hartley's addition to Santa Ana; value, \$1000.

DARKEN GRAY HAIR, LOOK YOUNG, PRETTY

Sage Tea and Sulphur Darkens So Naturally that Nobody Can Tell

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray; also ends dandruff, itching scalp and stops falling hair. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays, by asking at any drug store for "Weyth's Sage and Sulphur Hair Remedy," you will get a large bottle of this famous old recipe for about 50 cents.

Don't stay gray! Try it! No one can possibly tell that you darkened your hair, as it does so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, thick and glossy. PASSES IT TO SCHOOL BOARD

Committee Will Report Spanish Night School Mandatory if Needed

The committee appointed by the Santa Ana Chamber of Commerce to consider ways and means to establish and maintain a night school for Mexican students is going to report to the Chamber of Commerce tomorrow evening that if such a school is needed, the law is such that it is mandatory upon the board of education to establish such a school and maintain it from school funds.

The committee held a meeting last night. Those present were Harvey Gardner, chairman, County Clerk W. B. Williams and C. C. Collins. District Attorney West and Deputy Egan met with the committee at its request.

For some time past the proposal to establish a night school for Mexican children who are too large to attend the Mexican classes, whose understanding of English makes it difficult for them to attend other schools here or who for various reasons cannot attend school in the day time has been agitated. Superintendent of Schools Cranston took the matter up with the Board of Supervisors. That body answered that it has no control over school funds, and cannot appropriate money for the purposes outlined. The Chamber of Commerce was then appealed to, with the suggestion that possibly a public subscription could be undertaken by that organization to raise a fund for the school.

Last night the school law was explained to the committee, and the committee came to the conclusion that there is no more reason to start a subscription for establishing or helping out such a school than there is to help out the high school or any other public school. The state law makes it mandatory upon the school board to establish whatever night schools are needed, and to maintain them as any other public school is maintained. The teachers must hold teachers' certificates just as the teachers of other schools.

That this is the situation is to be the report of the committee to the directors of the Chamber of Commerce.
